Projects

E-commerce Website (HTML, CSS & JavaScript)

- This is a pharmacy e-commerce website where patients can order their medicine and owners of pharmacies can register to sell their medicine
- This is a group project. I make the main front page, payment page, cart, and sign-in page

Flappy Bird Game

- This is a fun game that makes using Python language

App for showing NPK values (React Native)

- With this app, users can see real-time data about the NPK (Nitrogen, Phosphorus, and potassium) values of soil at a certain location. Also, you can see the past data about the NPK values.
- The app shows the real-time location according to the phone location and Google map.
- Users can see NPK values separately with charts.
